

FOR IMMEDIATE RELEASE

Three New Members Join HDP User Group International

Scottsdale, Ariz., March 5, 2008—The High Density Packaging User Group International, Inc. (HDP), a global non-profit cooperative research and development organization for the Electronics industry, announces three new companies (Nan Ya, Wistron, and Chemtura) have joined the organization as corporate members.

The HDP organization and its member companies are excited about the addition of these three diverse companies and look forward to sharing knowledge in current and future projects that will benefit all. “These companies bring a wealth of knowledge and experience to HDP, and their support will be beneficial to all of our activities,” said Marshall Andrews, executive director of HDP. These new members will initially participate in the three Halogen Free Environmental projects currently underway.

About our three new members:

Nan Ya PCB Corporation is a subsidiary of the Formosa Plastics Group’s collection of chemical and plastics companies. Nan Ya Plastics primarily manufactures plastics, fibers, and electronic materials, and is Taiwan’s largest plastics maker. The company is counting on growing the electronic materials business, as well as its burgeoning specialty chemicals operations. Nan Ya Plastics was founded in 1958; it operates in the US through subsidiary Nan Ya Plastics USA.

Wistron Corporation was formally established on May 30, 2001. It is among the world’s largest ODM companies producing ICT products. From its headquarters in Taiwan, Wistron has expanded to include operations in Europe and North America. Product development focus is on Information and Communication Technology (ICT) products, including Notebook and Desktop systems, Servers and Storage systems, IA (information appliances), Networking and Communication products.

Chemtura Corporation, was formed in 2005 from the merger of Crompton Corporation and Great Lakes Chemical Corporation. Chemtura has approximately 5,600 employees in research, manufacturing, sales and administrative facilities in every major market of the world. They are a leading global supplier of plastic additives, including flame retardants; a leading manufacturer of pool and spa products; a global leader in seed treatment and miticides in the agricultural market; the largest component supplier to the lubricants industry; and a top global producer of urethane polymers.

About the HDP User Group International Inc.

HDP User Group (www.hdpug.org) is a global research and development organization based in Scottsdale AZ, dedicated to “reducing the costs and risks for the Telecommunications and Computer industries when using advanced electronic packaging and assembly”. This international industry led group organizes and conducts R&D programs to address the technical issues facing the industry, including design, printed circuit board manufacturing, electronics assembly, and environmental compliance. HDP maintains additional offices in Austin, Texas; Stockholm, Sweden; and Tokyo, Japan.

For more information, visit HDP User Group on the Internet at www.hdpug.org or contact Darryl Reiner at darrylr@hdpug.org, phone number +1 480-951-1963.
